

MANAGEMENT MAJOR FACILITIES

The department of Management Education is enriched with ventilated and well furnished computer lab with thirty five modern computing work stations. We provide a pleasant working environment for students to undertake their practical and assignment work. Students have entire lab at their disposal to carry out their project work with high speed internet connectivity to help them accomplishing their research objectives. The department computer lab can support number of students at the same time. All computers have the required software like MS Project 2010 and with periodic updates and antivirus.
