VISION

To be the world-class leader for the integrated development of technical education and training systems catering to the changing needs while achieving the highest level of client satisfaction, quality, professional values and contributing to the technological, economic and social development of the country.

MISSION

NITTTR Bhopal will act as a centre of excellence to:

- Intensify teacher education for improving the quality and performance of technical institutions.
- Make technical education a vibrant learning system for producing competent manpower to steer technological and economic development.
- Provide a wide spectrum of client-driven services and products through various modes.
- Strengthen networking and synergic partnership with technical institutions, industries, field agencies, and premier national and international organizations.
- Promote creativity, innovations, research and development, professional management practices, concept of learning organization, benchmarking and economics of education amongst client systems.
- Enthuse the spirit of professionalism, values and work ethics, networking and partnership with industry and other organizations and technical institutions.

Message from The Director

Welcome to the 2026–2027 Annual Training Calendar!

It gives me immense pleasure to present the Annual Training Calendar of the National Institute of Technical Teachers' Training and Research (NITTTR), Bhopal, Deemed-to-be University under "Distinct" category since 2024. The institute was established in 1965, and has remained steadfast in its commitment to excellence for over 61 years, serving as a premier centre for capacity building and professional development in technical education.

Deemed-to-be University status has empowered the institute to broaden its horizons, offering Ph.D, postgraduate, undergraduate, post graduate diploma, and diploma programmes alongside our established training initiatives.

The Training Calendar 2026–27 reflects our enduring commitment to transformative education, strategically aligned with national priorities such as the National Education Policy (NEP) 2020, Viksit Bharat@2047, and PM Gati Shakti. We aim to bridge traditional wisdom with contemporary needs through a diverse array of programmes. These encompass Pedagogy, Outcome-Based Education (OBE), Indian Knowledge Systems (IKS), as well as emerging frontier technologies including Artificial Intelligence, Machine Learning, Drone Technology, 3D Printing and AR–VR.

At NITTTR Bhopal, experiential learning remains central to our philosophy. Our state-of-the-art facilities—including the Centre for Experiential Learning, IDEA Lab, Centre of Excellence OSAT/ATMP, and the NITTTR–Siemens Centre of Excellence—ensure that educators and professionals gain crucial hands-on exposure, effectively connecting theory with practice.

Beyond training, the institute is deeply engaged in targeted research to address real-world challenges. Currently, 51 Ph.D. scholars are working on live problems, developing innovative solutions that deliver tangible societal and professional impact.

Key Highlights of this Year's Calendar:

- 289 Training Programmes and Workshops: Training programmes are learner-centric and are in strict adherence to NEP-2020 guidelines. The workshops mainly focus on developing capabilities in faculty from Bihar Engineering University, Central University Rajasthan and Maharashtra State Board of Arts in area of outcome-based curriculum development. The programmes and workshops will be conducted at NITTTR Bhopal and across our extension centres in Chhattisgarh, Goa, Gujarat, and Maharashtra. Few programmes and workshops are also planned at client locations.
- Digital Outreach: We provide expansive online learning through MOOCs in technical teacher education, sponsored by the Ministry of Education via the SWAYAM platform, and our proprietary e-Prashikshan (NITTTR Bhopal LMS).
- Customized Capacity Building: We continue to offer tailor-made, demand-specific training programmes based on mutually agreed proposals to meet specific institutional needs.

As we move forward, NITTTR Bhopal remains steadfast in its mission to empower educators, foster innovation, and contribute to nation-building through transformative education. I extend my best wishes for an enriching journey filled with valuable learning experiences and meaningful accomplishments.

“सततं अध्ययनं अमृतम्” Indeed continuous learning is like nectar—it sustains and enriches life.
